

# Love

परमपुरुष एक हैं, हम नारी बहु अंग ।  
उसी एक से प्रेम कर, पूर्ण मोक्ष का अंग ॥

**“Supreme Lord” is only our real father whose surti can liberate us from ‘Kaal Niranjan’/Mann. Thoughts that break the connection from ‘Mind’ and establish connection with surti of soul. Truth comes from the ocean of Super Soul to establish its permanent link with Super Soul. Mind is also a link between the sense world and ‘Soul’ realm. ‘Mind’ operates through thoughts and ‘Soul’ through Surti. There are infinite types of vibrations of love, hatred, envy’ jealousy’ anger’ sexuality etc in the cosmos depending upon the principles of ‘ like attracts like’. Mind and Body attracts material objects to satisfy our ego, desires and wishes, but soul attracts the super soul through surti, provided we have been bestowed ‘Alive Holy Surat Sabad’ by the true Master (Satguru) who have received the same ‘Surat Sabad’ from “Supreme Lord” Parampurush who resides in Satlok.**

आपा खोवें आप को जानें, तब जागा कहलायें ।  
मन माया तृष्णा सुरति में रहें, सोया ही कहलायें ॥

**This cosmos is directed and governed by Kaal Niranjan selently, secretly and subtly who directs the the working of every living being of this vast universe. He is present in every individual and functions secretly, invisible and vibrant religions were created to inspire and guide the inner consciousness of man and to transform it from animality to humanity, from humanity to nobility, from the engetic to God (Nirankar) and finally from God to Supreme Lord “Sahib Satpurush Ji” and this will take place when ‘Mind’ (Mann) is completely annihilated and ‘Soul’ become ‘Hansatma’ from Mind and Body. This stage comes in Para Bhakti after coming out from four bodies (refer granth Amarsagar).**

शुद्ध प्रेम अति गुण बढ़ा, तीन लोक काल ले जान ।  
मीरां को तुम देख लो, पा लिया निजघर निजधाम ॥

Human life is a wonderful and top creation of the Ek Onkar Bhagwan / God on this planet. This is very rarely provided to those atmas who pass all the exams of karmas and who have performed very good deeds during the past births to find place in the human birth. Human life comprises of five elements of Kaal Bhagwan i.e. Fire, Earth, Water, Air and Sunn. And this is said to be the top creation of God because the whole cosmos has also been created through these five elements. Besides this human birth, there are other yonis also in this entire universe which comprises of one, two, three as well as four tatavs. Even every body knows that there exists some unique power in this cosmos for the smooth functioning of the entire system of this universe to whom we call as Paramatma, Bhagwan, Ishwar, Allah, Wahe Guru, Jesus etc. etc. Actually, we don't know fully this power to whom we call our Supreme Father, but somewhere in our sub-conscious mind we consider it as doer of all the activities of the whole Brahmand. But we know neither about this Kaal Bhagwan nor ourselves. We have totally been distracted from our real goal of life as well as our identity. What we are ? To whom we belong and what is our true identity ? From where we have come ? and finally where we have to go ? We just continue to follow this God because of the already established old customs, traditions and techniques in different different ways. All the human beings have been divided into various religions, caste, colour and creed for the reasons not known to them. We are worshipping all the Devi-devtas, Bhagwan, Allah, Ishwar etc. through sargun and nirgun bhaktis of Ek Onkar / Kaal Bhagwan this way or that way and that too, due to our self interests. We often continue to make so many desires and demands of ours before them. And this we are doing since long as per the teachings and guidance of our ancestors.

Kaal Bhagwan to whom we also call as Nirankar/Kaal Niranjan is the supremo of the whole Triloki / Teen Loks who is running the functions of the whole cosmos with the help of Teen Devtas, Brahma-Vishnu-Mahesh, Aad Shakti and all the other 33 crores devi-devtas. He has established himself in 'Sunn' lok and controlling and watching all the activities of the cosmos silently from there. The most tragic point of view is that we all are treating him as our real father unknowingly and innocently and not even interested to know much more than this. What is truth, we even don't try to know it, if some one tells us something regarding spiritualism, we don't want to listen to him in our ego, and not even think of to listen. If we will not pay any attention towards this, who knows what kind of spiritual loss is going to be for us, we never know in general.

All of us after being hypnotised through the lust and luxuries provided to us have been trapped very badly in the prison of Ek Onkar

**Kaal Niranjana since so many Qayamat, from births to births in his karam pralabd bandhan chouraasi jaal. This whole process and cycle of Kaal Jaal is functioning systematically, smoothly and automatically on the ideology of karamas. This whole process repeats in each qayamat every time.**

**Note :-**

**(To know and understand thoroughly the whole concept of Kaal Bhagwan, go through the holy granths i.e. Amar Sagar, Surti Ki Mahima, Anand Sagar, Secret of Liberation ( english), Geeta Amrit Saar and Geeta se Moksh ki aur etc. along with thousands and thousands Dohe, Kaavya and Bhajans written by Sahib Satguru Paramhans 'Vai Naam Ji' through the Surti of "Sahib Satpurush Ji" who actually is our Real Father resides in Amarlok, Satlok Nijghar of all the hansas).**

**We perform karmas in human births only and not in any of the other four tatavs yonis where we can reap our fruits only according to the past karmas. This all has already been written in Vedas, Purans, Upnishads and Shastras as well. We do attain temporary muktis as per the fruits of our past karmas either good or bad, but we have to come back again from different different loks i.e. swargas, narakas, pitr lok, gou lok, bharatpur lok etc. into the womb of mother again and not attain permanent moksh i.e. liberation from the cycle of deaths and births which is not possible through the bhaktis of Kaal Niranjana. But karmas are bound to happen again and again. How we can get rid of the karmas and for what ? Whether we know ? No, we don't. What is the secret behind that ? Who is our real Father ? Who we are ? From where we have come and where finally we have to go ?**

**These all confusions are not being cleared to us since the creation of this universe by the Kaal Bhagwan, that is why we say that we have been cheated and misguided by the God himself to whom we are treating our father unknowingly. What is that secret which has been kept hidden from us and why ? We have to find out now ! And when & when we try to solve this mystery we again and again derooted, diverted towards spiritual places, institutions, matts, devi-devtas and holy books of different religions. No one is telling about the universal religion and humanity. Even Kaal Bhagwan has established himself as 'Mann' in our Sushmna Nerve above the nostrils at trikuti chakra to watch our Atma so that it may not get liberated any way.**

**'जिस ने दर्द दिया है वही दवा कैसे देगा'**

**Kaal Bhagwan is providing you each and everything you want except to allow your atma to get liberated from the cycle of deaths and births because he has to run the process of Teen Loks also with the help of the power of our Atma who possesses immense power also within in the form of Mool Surti. Kaal Nirjanjan is providing each and every facility you demand, even he has been guiding you as well how to live in this cosmos, how to behave and deal with the masses, how to help others etc. etc. through his army of Mann, Budhi, Chit, Ahankar along with Kaam, Krodh, Moh, Lobh and Ego and all the Devi-devtas working on behalf of him. And we are making ourselves satisfy and happy through this only and totally have forgotten our true identity as well as our real home Satlok from where we have been departed from our real father since long. We all have been engrossed and absorbed in the loks of Kaal Bhagwan so deeply that we are singing and dancing only on the tunes of his army. We are continuously making him thankful for his kindful gesture also of providing us all the luxuries and facilities. We are also treating him as our God Father innocently, unknowingly and ignorantly. But we don't know the truth that even inspite of providing us all the things we require, he has secretly kept our true identity hidden so that we may not get liberated from the clutches of the jaws of three loks. He has to make use of the power of our atmas to run smoothly the functioning of three loks.**

**In dwapar yug, when in the carnation of Lord Krishna he has something expressed about liberation of atmas in a great holy book 'Geeta', but that too was not openly brought into the knowledge of all the human beings because he himself is the part and parcel of 'Mann', how he could tell about the secret of Atma openly. This secret has remained only secret right from the creation of this universe.**

**Approximately, six hundred years back from now, Sant Sahib Kabir ji after being blessed with the "Saar Surti Daat" from 'Sahib Satpurush Ji' gave message of Sehaj Bhakti Marg to the masses, but people could't understand his message properly as that period was gripped with so many rigidities, old rotten ideologies of different religions based on caste, colour, creed, customs and untouchability etc. At that time freedom of expression of the respective ideologies was also on threat. On the whole, people could't grasp the 'Satt Surti Sandesh' of "Sahib Satpurush Ji".**

**Kaal Bhagwan has tied all the hansatmas of this whole cosmos through his army so systematically in the karam pralabd bandhan jaal in such a way that Atam is treating itself as part of body and maya only. All**

the five elements will perish on the dooms day when qayamat will come, but atma is immortal, can't be destroyed by any means and is not a part of three loks. Actually Atma had been sent here in three loks only to wander and for excursion. But after being hypnotised by the lust and luxuries of Kaal Jaal it has forgotten completely its true identity and existence and realising Kaal Bhagwan as its true and real father. The main blunder which has been committed with the Atma tatav is that its true identity i.e. hansatma has not been expressed before it due to which it has been wandering here and there from births to births among all the five tatavs since it has come from Amarlok/Satlok the real abode of all the hansas.

All the human beings are doing bhaktis according to their respective religions and dharmas only to show off others. So many saints are there for the care and guidance of the masses. But instead of guiding the right path to the people they even spoiled and cheated them more by using them for their own interests. At present times over all more than sixty lacs gurus are registered, but they have lost their image of gurus before the society as well and continue to flourish their businesses with the donation and chandas of the devotees. No doubt there are some spiritual organisations too who have been definitely doing good jobs for the masses as well in the form of social reforms, by making people away from the evil deeds such as drugs, nashas etc. But as far as bhakti is concerned it has totally been demolished from this planet, it seems. Due to differentiation and division of bhaktis into so many parts we are not reaching towards the real source of our Atma and Satt Bhakti Marg. To whom we see is doing bhaktis of 'Mann' Kaal Jaal this way or that way. But we are actually Hansatma as per the wani of Sahib Satguru Paramhans 'Vai Naam' Ji who is giving the message of Truth to all the jagat jeevas of this cosmos. We are not 'Mann' at all.

Our Atma who has been amalgamated by Kaal Bhagwan. Atma has been deluded with black matter 'sunn' (Mann) in it. If we extract element of Mann from Atma, we become 'HANSATMA' and this is not possible without the Alive Holy Name of "Sahib Satpurush Ji" our real father. Satguru Paramhans only is authorised by our real father to get ourselves liberated from the cycle of deaths and births, i.e. complete moksh / nirvana. There is no source of Atma anywhere in this cosmos. Because this cosmos is perishable and our Hansatma is immortal, undestroyable and unperishable. And anything which is unperishable, undestroyable is 'TRUTH'. Rest all is illusion here in this cosmos. And where 'Truth' exists, Love automatically emerges there as it is the ingredient of Satlok/Amarlok. It seems to be understood that no one is actually interested in doing bhaktis based on 'TRUTH AND REAL SPIRITUALISM'.

भक्ति भक्ति सब जगत बखाना, भक्ति भेद कोई बिरला जाना।  
भक्ति भेद जानेगा सोहि, जाका सतगुरु पूर्ण होई॥

So need before a little idol is to worship the image of God and Goddess. A man should study mankind to understand the nature and tendency of human being. What I see the object of worldly love which is the dream world. Passion is cause of dream world as it is purely physical. This physical love is not going to provide us any dividend, it is just allurements from Mind/Maya and keep us busy in idol worships so as to avoid and distract us from true spiritualism. People generally follow the old, rotten traditions and techniques for centuries and centuries together. It is just like playing with the toys which is not going to pay us any proper dividend in our life. Although they are the source of inspirations but one has to move ahead if he wants to make progress. Worshipping of idols has nothing to do with the true spiritualism. You can't remain in one class throughout your life. If you want to make your life happy and prosperous, you have to move ahead. So love to demand, that moves towards spiritualism. But physical love has nothing to do with spiritualism as surti purely is deluded away from supreme consciousness. One has to see through his inner eyes the path of spiritualism. A passionate love can't move towards spiritualism.

Love makes any one charitable and kind hearted. it doesn't stick to one individual and will like to embrace the whole mankind. When a little bit of love develops in you, you want to embrace the whole universe. Spiritual love needs to be developed in all the human beings so that every body should have his meal to eat and other requirements. Married persons help the masses as they already deal to help their families, and if they are blessed with Alive Holy Name, it works more effectively. Internal love is most important to help others while physical love has nothing to do with spiritualism, it has just benefitted the human life in general. It doesn't mean that we are degrading the meaning of love, as lotus blooms in the mud. Physical love can give only happiness but not joy which can be availed only through spiritual love. As soldiers are true human beings, true religious, devoted towards the nation selflessly. They work like insects who get attracted towards light and finally burnt selflessly at the end. This is Love. Importance of silence and isolation is must for attaining natural love in you. Always think for the universal betterment and their liberation. Materialistic developments are bound to happen but greatest tragedy of human being is development followed by destructions via war to supersede one another countries. Besides all materialistic developments we have forgotten true spiritualism and following old rotten traditions, customs and rigidities of religions. Self realisation is of utmost importance which should be the purpose of life to quit from mental and physical sufferings.

Everything is get polluted of water and air seems to be understood. But pollution of Mind and Maya is not being understood by any one throughout the universe but in self and scientific development we are indulged in. When you will realise that your inner eye is working, then you will be awakened spiritually. Internally when you will do work with left hand, your right hand doesn't know and that stage has to attain by you in surti. Only living Satgurus can help you to elevate spiritually. What does Alive Holy Name does. During spiritual progress through this surti daat Mind/Maya goes, 10 airs moves towards sushmna, body is free from illnesses, bacteria, bhanwar gufa freed from cough. Finally you possess surtis of the three Satguru's, Satpurush and of your own. What else one wants from Satgurus.

सत असत्त विचार मत कीजै ।

सतगुरु की बात मान बस लीजै ।।

Drop is turned into ocean of sea, Mind Maya is away from self. Importance of mind maya is gone and now you perform as per your purpose on this planet. Life and death cycle is over now. Surrender completely before Satguru. Take everyone like you. Why to make distinction with any one if you are performing functions as per the direction of Satguru. Truth is what you feel with in. Love is when you spread the whole universe like you, observe and feel like you and your soul surti has same fragrance as you are getting from others. You have to obey all the dictates of Satguru. He is perfect. He is embodiment of Satpurush on this planet.

Oh, we were here to express 'Love' ! To define Love, to feel and realise Love; we have to realise ourselves within i.e internal, We can find nothing externally.

In the same way love can be found within which never so often seen in this materialistic world. Because prem-preet emerges only there where qualities of true spiritualism exists. When ever we spent some time, talk to some one, exchange our views with each other on any topic, there how we can escape from the effects of 'Mann', being under his control and grip very tightly. There may be some infatuations, some attractions with any one, its natural and we use to call and treat this as love, yes love, but physical attractions which has nothing to do with true love. We often deal with the people, make

relations, make friends, do businesses with each other, we do all possible efforts to present ourselves with good image which actually we don't possess. We cross even any limit for the sake of our own benefits in greed and try to put others always at loss. We don't even respect our elders oftenly. In which direction we are heading for ? And we are in search of 'Love' in this man-made ugly atmosphere full of adulteration in all respects ! What to talk of other jeevas when human beings seems to be the enemies of each other for their self interests. And we are searching of 'Truth' & 'Love'. Sometimes it seems that we have come in some wrong place where nothing matches with human values. People are already prepared to fulfill their even wrong deeds as and when they get chance to perform as per their will. How we can live here with love and peace where all the time people are busy befooling others, cheating others and having support of lie only in all their professional as well as social activities in their day to day life. Can we concentrate and have meditations in such adulterated and amalgamted atmosphere.

In such atmosphere how we can expect that diseases like Corona Epidemics may not occur. Human life has lost its morality and nobility. In this character all the spiritual values seems to be demolished. In this civilized world if we ask some one regarding 'Love', he will show you books and books full of love-psychology with hundreds of examples of the past in them. But in reality no one bothers each other, no where sympathy seems to exist, no one is ready to help each other. Every one is just thinking about the interests of his own and his family. Why this happens so ? Why it is necessary to know this all ? What is the purpose behind that ? And finally with whom the answer lies ?

**Note :-**

(To understand and have answers of all this..... go through the holy granths i.e. Amar Sagar, Surti Ki Mahima, Anand Sagar, Secret of Liberation (english), written by Sahib Satguru Paramhans 'Vai Naam Ji' through the Surti of "Sahib Satpurush Ji" who actually is our real father resides in Amarlok, Satlok Nijghar of all the hansas).

The solution of any problem depends upon the fact that how much curiosity do we have to know this ? How much I am getting pinched from inside to know the answers of all this ? Whether I am really interested to know ? & Eager to know ? Whether I possess that much of capacity to understand ? If need arises how much devotion we will show ? How much faith & belief we acquire with in us ? Are we ready to sacrifice our old rotten traditional beliefs, myths and ego ? Are we flexible to bow down before others for the sake of

finding the truth as well as True Spiritualism ? Are we courageous enough to let go off our ego to listen our inner voice of “Supreme Consciousness” ? Now are we ready to know the real purpose of our life on this planet ? Now we have to decide with in ourselves to find out that Guide, Satguru or Mentor who possesses immense power of “Supreme Consciousness” “Sahib Satpurush Ji” with in himself and have met with him personally and from whom we can have all the answers of our queries ? And if our answer is yes than congratulations ! We are very close to find ‘Love’ not only Love but Peace and Anand very soon with in ourselves !

And this all will happen only through the blessings of Sant Satguru Paramhans ‘Vai Naam’ Sahib Ji. And if we recall our inner beings with such a high intensity for any query of ours regarding the True Spiritualism which comprises of ‘Love, Peace, Anand and Joy’ which are the gradients of True Spiritualism, i.e Videh Daat / “Vai Naam Daat” / Surti Daat / Sahib Satpurush Ji / Satlok / Amarlok and last but not the least Sant Satguru Paramhans ‘Vai Naam’ Sahib Ji. How this is possible that Supreme Lord who is our real Father as well, will not listen to the voice of his children ! And to tell about the ‘Truth’ and real spiritualism Sant Paramhansas of Nijdham do comes on this planet time to time to give the message of truth among the general masses to achieve their goal of life and get themselves liberated from the endless cycle of deaths and births of the Kaal Bhagwan in this cosmos.

Search of real truth is the out come of our inner urge & curiosity through which all the human beings can accomplish their real goal of life. In this process we finally find ourselves in a position where we reaches to the complete master of the times i.e. Sant Satguru Paramhans of Nijdham who have been blessed through the surti of the ultimate supremo our real father “Sahib Satpurush Ji” of Satlok/Amarpur/Begampur.

‘जिन खोजा तिन पाईया’

Truth is “Sahib Satpurush Ji” himself and so as Satguru Paramhans Sahib Ji. Sant Satguru Paramhansas are made directly through “Sahib Satpurush Ji” and through their hard work, dedication, devotion, sacrifice, the living style and so many other things for which every thing has been mentioned thoroughly in the holy books of “Vai Naam Surti Dhara” and U-Tube as well. The only thing we all the human beings have to do is to follow fully all the ten traits / principles of “Vai Naam Surti Dhara” after being blessed by the “Saar Surti Daat” of Sahib

Satguru Paramhans 'Vai Naam' Ji with full samparpan into the lotus feet of him. 'Love' is not the topic to write about and no one can even express this divine feel in words, this is not possible almost. Love has to be extracted from within ourselves by complete surrender, to emit ourselves for the cause of others, to sacrifice all what you possess for the sake of others and that too not out of compulsion but by inner will to do so.

If we analyse the attitude and point of view of the society, the Love seems to be explained with different different ideologies. So many divine real stories are narrating the gratitude and relevance of true love, rather selfless love e.g. Laila-Majnu, Heer-Ranja, Sassi-Punnu, Soni-Mahiwal, Sheeri-Farhad and so many others who have laid their lives for the sake of others. We will not do justice if we don't talk about the Prem-Gathas of Lord Krishna's preet with Meera and Vidurien, and of Lord Krishna and Sudama's love is also very divine. Lord Rama & Shabri's prem episode, Lord Rama & Bharat (भरत मिलाप), and last but not the least a divine example of preet of 'Neena' doodh wali for Sahib Satguru Paramhans 'Vai Naam' Ji in the recent time (refer topic of 'Neena' doodh wali) and many other examples of Satguru Ji's preet are mentioned in "Vai Naam Surti Dhara" holy books. It is pertinent to mention here that the param saadhika of Satguru Sahib Ji 'Neena' doodh wali has increased unlimited times the importance of the 'Tapo-Bhoomi' of Satguru Ji at Rehari Ashram through her unmatched divine preet, faith and belief in all the 4-loks.

Satguru Sahib Paramhans Ji has been doing bhakti and tapsya since long throughout his life and this is the place where he was bestowed Saar Surat "Vai Naam" Daat from directly through the surti of "Sahib Satpurush Ji" and this is only the holy divine place where all the top spiritual dignities of Nijdham have come along with "Sahib Satpurush Ji" himself to meet and bless Sahib Satguru Paramhans 'Vai Naam' Ji. And this has never happened earlier anywhere since the creation of this universe. As per Sahib Satguru Paramhans Ji who-so-ever will visit this 'Tapo-Bhoomi' with full devotion and faith he is bound to get rewarded for his spiritual upliftment and desires. As per the wani of Satguru Sahib Paramhans Ji this is the real treasure of "Satpurush Sahib Ji" in the form of "Vai Naam Daat" which he has been rewarded with and the same he is continue to deliver it to the masses as well if they are willing to have this treasure. By having this treasure one can become rich, richer and the richest in all respects through his dedication and devotion towards the real Satguru Paramhans of the times and fortunately he is none other than our beloved respectable Sant Satguru Sahib Paramhans 'Vai Naam' Ji.

सुरति में जाईये प्यारे, सतगुरु की सुन लो बात।  
जो सुरति में डाल लिया, चलो उसी के साथ॥

Through the journey uptill now it is very much clear in our surti that if we want to know real 'Truth', and willing to have 'Divine True Love' we will have to become 'giver' all the time for the sake of others, we will have to let go our ego, doer-ness, lust and luxuries of Trilok-pati Kaal Nirajan, the fifth son of Sahib Satpurush Ji (To know about this read Amar Sagar Granth of "Vai Naam Surti Dhara"). If we really want to get out of Kaal Jaal and to have real Peace, Anand and Joy, we will have to know our inner being and ourselves internally and after all finally have to have "Vai Naam" surti daat from the real master of the time from Satguru Paramhans Sahib Ji who possesses immense powers of "Sahib Satpurush Ji" within himself. We will have to follow all the instructions and principles of Satguru Sahib Paramhans Ji with love and pooran samarpan. We will have to meditate regularly to have firm practice of leaving this perishable body comprises of five elements of Kaal Bhagwan as per our will through the norms of meditation as per Sehaj Bhakti Marg & "Vai Naam Surti Dhara" ideology.

If we follow all the norms, ideology and principles of "Vai Naam Surti Dhara" strictly, question does't arises that we may not achieve our spiritual goal of life and reach Satlok/Begampur/ our real home to meet our real father 'Sahib Satpurush Ji' from whom we have been departed since the creation of this cosmos/universe/triloki. We will not come into the womb of mother again and remain in our own sweet home Satlok/Sachkhand with LOVE-PEACE-ANAND & JOY and will merge in all the Hansatmas of Nijdham finally.
